### **SUGGESTED FINISH MAINTENANCE PROCEDURE:**

1. Do not allow water spots to dry on the fixture. Keep the surface clean and dry after use.
2. Periodic cleaning can be done by using a mild diluted glass cleaner (we recommend Windex). Apply the mild cleaner to a soft clean cloth, and periodically wipe your fixture down to remove water spots and surface debris.
3. Never use cleaners with bleach, abrasives, or vinegar. Never use any type of abrasive pad or sponge.

### **ABOUT YOUR FINISH:**

These finishes are powder coated color finishes. They have **NO ADDITIONAL PROTECTIVE COATING**. These finishes are not considered durable finishes and can be scratched, chipped or scuffed. If the exterior color coating is damaged, the exposed metal base will oxidize. Any use of an abrasive cleanser, or any abrasive pad, cloth or sponge can remove or dull the color coating and damage the finish. Some available sink cleaners with bleach, soaps, and hand lotions will damage the finish, as can acidic organic cleansers. Always wipe your fixture down with a clean soft cloth and keep it clean and dry after use.

### **IMPORTANT NOTICE:**

It is the responsibility of the customer to check for any material finish defects **BEFORE** installation.
