Waterstone has excelled in the luxury kitchen faucet industry for over 20 years. Our commitment to innovation and developing superior quality, high-end faucet products is unprecedented. We now bring that innovative spirit and begin our voyage into the bathroom. We are proud to introduce the latest blend of art and technology - The Argonaut Bath Suite. A collection of bath products that caters to a niche of homeowners that seek the spirit of adventure.

Waterstone President Chris Kuran and the engineering design team have developed a premium bath line reminiscent of a industrial age ocean liner. A design inspired by the levers, pressure gauges, valves and hatch doors deep down in the engine room. Intricate knurling, raised rounded edges and mechanical bolts give off a nautical industrial feel. The Argonaut is a tribute to American ingenuity and will enhance the look of any modern bathroom.
