

INTRODUCING
A NEW LINE UP
OF PULLDOWN
FAUCETS

Waterstone never stops innovating. In celebration of our 20th year of creating luxury kitchen designs, we are proud to introduce 22 new unique PLP Pulldown Faucets.

ALL AVAILABLE NOW

THE ENDEAVOR WHEEL FAUCETS

INDUSTRIAL
PLP PULLDOWN FAUCETS

MODERN
PLP PULLDOWN FAUCETS

CREATING ORIGINAL ART THROUGH FEARLESS DESIGN

At Waterstone, we don't play it safe. We like to drive fast and leave the competition behind. Our latest creation is a high-performance faucet that looks like it could rev right off the counter. The Endeavor Wheel Pulldown Faucets raises the bar to legendary levels and is a salute to America's love for motorcycles and muscle cars. The mono-spoke wheel design combines the straight lines of an open road with smooth curves of the mountains to create a classic work of art. The Wheel's fender encases the hose and pulley to give it a clean and minimalist look - without losing any of the functionality you demand.

Waterstone Industrial PLP Pulldown Faucets are ideal for any home design with a simplistic look and uncluttered lifestyle. A modified version of our existing contemporary models, the Industrial PLP Pulldown has a thinner, sleek faucet body design. A faucet that is minimalist in design, but with a touch of modern diamond knurling. It's urban, but not just for the big city. Today's kitchen designers have brought those elements to the suburbs and have created unique, eclectic, and carefree interiors.
