# CRAFTED WITH AMERICAN INGENUITY

Waterstone Faucets has been paying homage to the modern American artisan tradition since 1999. Each Waterstone product is touched by hand and made with integrity from our headquarters in Southern California. Our best-in-class plumbing fixtures are testaments to craftsmanship as a unifying force. We forge lasting bonds with our customers through the products they see and touch everyday.

## CHARTING NEW WATERS!

---

### INTRODUCING THE NEW WATERSTONE ARGONAUT BATH SUITE

Waterstone has excelled in the luxury kitchen faucet industry for over 20 years. Our commitment to innovation and developing superior quality, high-end faucet products is unprecedented. We now bring that innovative spirit and begin our voyage into the bathroom. We are proud to introduce the latest blend of art and technology - The Argonaut Bath Suite. A collection of bath products that caters to a niche of homeowners that seek the spirit of adventure.

Waterstone President Chris Kuran and the engineering design team have developed a premium bath line reminiscent of an industrial age ocean liner. A design inspired by the levers, pressure gauges, valves and hatch doors deep down in the engine room. Intricate knurling, raised rounded edges and mechanical bolts give off a nautical industrial feel. The Argonaut is a tribute to American ingenuity and will enhance the look of any modern bathroom.
