**MORE RESISTANCE TO CORROSION FROM SITTING WATER OR SOAP.**

The high quality you've come to expect from Waterstone has just gotten better. We are introducing **316 MARINE GRADE** Stainless Steel. This exceptional stainless steel is stronger for a lifetime of durability and has maximum resistance to rust, pitting, corrosion and staining. It is the same top quality stainless steel used on ships and surgical equipment. Waterstone will begin creating contemporary faucets and accessories with this new durable 316 material beginning March 16th, 2018. Did we really need to offer better stainless steel? No, but we did it anyway! We're Waterstone and we are always looking for better ways to create the best kitchen faucets in the world.
